## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-30 are allowed.
2. The following is an examiner's statement of reasons for allowance:
  - a. With respect to claim 1, the claim has been found allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a method of estimating the spatial variation of MRI RF signal intensities within an object from measured RF signal intensities of a uniform spin density medium surrounding the object, the method comprising the step of fitting said model to selected measured RF signal intensities to obtain an estimate of the spatial variation of the MRI RF signal intensities in combination with the remaining limitations of the claim.
  - b. With respect to claim 30, the claim has been found allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a method of enhancing a MRI of an object comprising the step of fitting said model to selected measured RF signal intensities to obtain an estimate of the spatial variation of the MRI RF signal intensities in combination with the remaining limitations of the claim.
  - c. With respect to claims 2-29, the claims have been found allowable due to its dependency on claim 1 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2859

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
